

JKSSB Accounts Assistant Exam Pattern 2026

Before diving into the chapters and topics, it is crucial to understand the structure of the examination. The selection process is straightforward, which is excellent news for candidates who prefer merit-based written evaluations over subjective interviews.

✓ **Written Examination – 120 Marks**

✓ **No Interview, No Viva**

The written exam is **objective type (MCQ)**, conducted for **2 hours**, and consists of **120 questions** for **120 marks**.

This means the entire competition depends on how well you prepare for the **JKSSB Accounts Assistant Syllabus 2026** as there is **no interview stage**.

The exam tests your knowledge across eight different sections, ranging from General Knowledge to specialized Accountancy topics. This diversity means you cannot rely on just one subject; you need a balanced approach to score well.

Before starting their exam preparation, candidates should have a clear understanding of the JKSSB Finance Accounts Assistant (FAA) Syllabus and Exam Pattern 2026. Knowing the syllabus helps aspirants decide what to study and how to prepare in an organized way. It includes subjects such as General Knowledge, Accountancy, Economics, Mathematics, Statistics, Computer Applications, General Science, and Reasoning. Understanding each section ensures focused study and better exam performance.

What is the syllabus for JKSSB Finance Accounts Assistant 2026?

The JKSSB Finance Accounts Assistant (FAA) Syllabus 2026 includes topics from general studies, finance, mathematics, statistics, bookkeeping, and reasoning. The syllabus shared here is based on the **previous year notifications**, and the updated syllabus will be provided once JKSSB releases the detailed **JKSSB FAA Notification**. Until then, this breakdown serves as a helpful guide for candidates to begin structured and effective preparation.

What is the exam pattern for JKSSB FAA 2026?

The JKSSB Finance Accounts Assistant exam pattern 2026 consists of a single written exam with objective-type multiple-choice questions. The paper is conducted in English only and includes negative marking, where 0.25 marks are deducted for each wrong answer.

- Written test with objective-type MCQs
- Paper language will be English only
- Negative marking of $\frac{1}{4}$ **mark** for each wrong answer
- Final selection based on written exam + document verification
